#### About GRESB

GRESB is an annual benchmark established primarily by major European pension funds groups based on the Principles for Responsible Investment (PRI) in 2009, which measures environmental, social, and governance (“ESG”) considerations in real assets including real estate and infrastructure, etc. More than 75 investor/bank members (representing more than USD18 trillion in institutional capital; approximately 1,980 trillion yen at an exchange rate of 1 dollar =110 yen) use GRESB data to select and dialogue with investment targets. A total of 903 entities, including real estate companies, REITs and funds, globally participated in the 2018 GRESB Real Estate Ratings.
